Work Experience

Inspiro

Intern

Dumaguete City

Nov 17 2025 – Feb 13

2026

- Provided helpdesk support, resolving 25+ tickets weekly across hardware and software issues
- Maintained IT inventory management system tracking 500+ company assets including laptops, monitors, and peripherals
- Assisted with network setup and maintenance, troubleshoot hardware issues for desktops, laptops, printers, and other IT equipment

Projects

OJTRACKER - Attendance App

FullStack Developer

Web Application

December 2025 – February 2026

- Implemented features for intern management, including adding interns, assigning schedules, tracking attendance, and monitoring task completion.
- Built **dynamic UI components** (tables, filters, tabs) to **organize intern data** by categories (e.g., Morning, Mid, GY shifts).
- Integrated **Firebase Firestore** to handle dynamic data storage and retrieval.

CHADA - A Progressive Web Assistant Application

Frontend Developer

Web Application

July 2025 - November 2025

- Developed a responsive **Progressive Web Application (PWA)** for trip and itinerary management, enabling users to plan, organize, and manage group travels efficiently.
- Designed and implemented key UI features including **“My Trips” dashboard, itinerary editor, and group management system** for seamless user interaction.
- Built reusable and interactive frontend components using **HTML, CSS, and JavaScript**, focusing on clean UI/UX principles.

KNOTPEDIA

Frontend Developer

Web Application

July 2025 - November 2025

- Designed and developed a full-stack web application for knot-tying education using HTML, CSS, and JavaScript
- Built an intuitive UI featuring knot browsing by type and activity, search functionality, and video tutorials
- Organized and structured content for 15+ knot categories with step-by-step guides and visual references
- Focused on UI/UX design, front-end functionality, and structured content organization across multiple pages
